

RUBBEXX SHEETFED PRINTING BLANKET

FOR UV- AND WATER-BASED COATINGS

GLOSSMASTER AIR

POLYESTER-BASED COATING PLATE FOR SHEETFED

- // with bright compressible layer
- // excellent for UV- and waterbased varnish
- // high dimensional stability ensures a very good reusability
- // highest resistance to delamination
- // perfectly suitable for manual editing for manual cutting as well as for cutting with plotters
- // Low color build-up and long washing intervals, because of the special modified surface

TECHNICAL DATA

Surface

Colour: Black
surface hardness:
48° Shore A

Compressability at 1350 kPa:
0,10/0,130/0,240mm

Polyester basis:
0,35mm Polyester layer

Thickness (Reliefdepth):
1,15 mm (0,8 mm)
1,35 mm (1,0 mm)
1,95 mm (1,6 mm)
