

# RUBBEXX SHEETFED PRINTING BLANKET

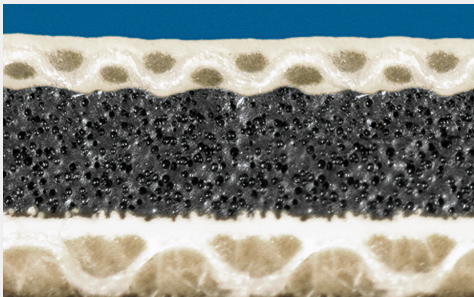

FOR CONVENTIONAL COLORS, HIGHCOMPRESSIBLE

## CONTI-AIR® LITHO HC

### FABRIC BASED SHEETFED PRINTING BLANKET

Tough all-purpose blanket for sheet-fed offset:

- // High durability, even when substrates or sheet sizes are frequently changed
- // Very strong compressible layer
- // Minimal sinking throughout the life of the printing blanket
- // Excellent smash resistance
- // Climate-neutral blanket (PURE PRINTING) because of dissolvent reduced production

### TECHNICAL DATA

#### Printing surface

Color: oceanblue  
Surface hardness(DIN 53505):  
63° Shore A

#### Compressibility

At 1.350 KPa:  
0,207 mm ± 0,027 mm

#### Fabric Layers

2 precision calendered fabric  
plies

#### Nominal thickness (ISO 12636)

1,95 mm
