

RUBBEXX

SHEETFED PRINTING BLANKET

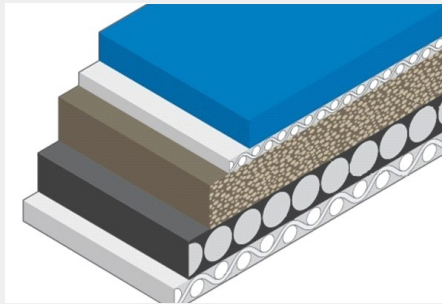

FOR CONVENTIONAL COLORS, HIGHCOMPRESSIBLE

ADVANTAGE PLUS

FABRIC BASED SHEETFED PRINTING BLANKET

High quality all-purpose blanket for sheet-fed offset:

- // Unique patented cord fabric for high smash resistance
- // High dimensional stability avoids retightening
- // Low dot gain
- // High contrast
- // Reduced vibration stripes
- // High durability
- // Solvent resistant
- // Excellent ink transfer and dot sharpness

TECHNICAL DATA

Printing surface

Color: blue
Surface hardness(DIN 53505):
60° Shore A

Compressability

At 1.350 KPa:
0,187 mm ± 0,027 mm

Fabric Layers

3 precision calendered fabric
plies

Nominal thickness (ISO 12636)

1,95 mm
