

CONTI-AIR® ENTROPIA TR2

FABRIC-BASED PRINTING BLANKET FOR SHEET-FED

Universal printing blanket for reliable quality in web offset printing:

- // Balanced performance for single-drive printing presses
- // Slightly negative paper transport behaviour
- // Ideal for shaftless newspaper rotations in satellite construction and high-tower design
- // No migration on the cylinder
- // Defined thickness reduction for optimal work height
- // Innovative Air2 technology

TECHNICAL DATA

Printing surface

Color: Green
Surface hardness (DIN 53505):
63° Shore A

Compressibility

At 1.350 KPa:
0,215 mm ± 0,03 mm

Fabric Layers

3 calibrated fabric layers

Nominal thickness (ISO 12636)

1,95 mm
